Milestones Agreement Form

PhD-Electrical Engineering

This form is provided for the purpose of informing students about the academic milestones that they will be expected to reach in order to earn their Ph.D. degree as well as when they are expected to completed these milestones. Students are expected to reach each milestone within the specified time period in order to make satisfactory progress through the program. Students who are not making satisfactory progress may lose funding, be placed on academic probation, or be dismissed from the program.

Academic Advising

Upon entering the electrical engineering program, all doctoral students will seek an find an advisor. The advisor should be a member of the Electrical Engineering Department.

Academic advising includes the following elements that are designed to ensure that students remain in good academic standing and make satisfactory progress through the program. Advisors are responsible for the following:

- Ensuring that annual reviews between student and advisor and/or supervising committee occur. The results of this review will be included in the program's annual doctoral progress report.
- Providing suggestions on course selection
- Reviewing the student's Degree Plan to determine if the student is making progress consistent with the expectations of the program and reaching milestones according to the timeline provided on this form; working with the Doctoral Studies Committee and student to determine if modifications are necessary
- Clarifying the timetable for completing any remaining course requirements, examinations, and other requirements
- Providing the student with assistance in understanding the requirements for successful completion of dissertation
- Providing the student with assistance in assembling a dissertation committee
- Providing the student with experiences and information that will optimize the student's career opportunities and success

Requirements for all Doctoral Students in the Electrical Engineering Program

Milestone	Expected Time of Achievement (48 hr. program)	Expected Time of Achievement (75 hr. program)
Review of student's progress with advisor	Annually	Annually
Successful completion of qualifying exam including "Knowledge Competencies" and "Dissertation Proposal" exams and admitted to doctoral candidacy	"Knowledge Competencies" (i.e. the written portion of the exam) by the end of 3rd long semester "Dissertation Proposal" (i.e. Proposal defense) by the 5th long semester	"Knowledge Competencies" (i.e. the written portion of the exam) by the end of 3rd long semester "Dissertation Proposal" (i.e. Proposal defense) by the 5th long semester
Coursework successfully completed	By the end of the 3rd long semester for full time students By the end of the 4th long semester for part time students	By the end of the 6th long semester for full time students By the end of the 8th long semester for part time students
Dissertation Committee appointed and approved by Graduate School	By the 5th long semester	By the 5th long semester
Dissertation proposal completed and approved	By the 5th long semester	By the 5th long semester
Student completed all files and paperwork required for graduation	Before the deadline as stated by the Graduate School for each respective graduating semester	Before the deadline as stated by the Graduate School for each respective graduating semester
Dissertation completed, successfully defended and approved by Committee	Before the deadline as stated by the Graduate School for each respective graduating semester	Before the deadline as stated by the Graduate School for each respective graduating semester
Dissertation accepted by the Graduate School	Before the deadline as stated by the Graduate School for each respective graduating semester	Before the deadline as stated by the Graduate School for each respective graduating semester
Exit interview completed and submitted to SED	By the deadline set forth by the College of Engineering for each respective graduating semester	By the deadline set forth by the College of Engineering for each respective graduating semester

Degree Completion Checklist for Students

- Maintain active student status by registering for courses every fall and spring semester (may also include summer depending on program-specific requirements)
- **Complete Milestones Agreement Form with your advisor annually**
- Complete all required organized coursework by the given timeframe
- Schedule and successfully complete required qualifying exams by the given time frames
- Form your dissertation committee in consultation with your advisor and dissertation Chair by the given time frames
- Have your committee approved (including special members) by department and Graduate School by the given time frames
- Prepare and successfully present your dissertation proposal by the given time frames
- Apply for Advancement to Candidacy by the given time frames
- Enroll in required dissertation hours and complete your dissertation after successfully completing the Dissertation Proposal
- Successfully complete your defense of your dissertation by the last semester
- Submit required documentation to the Graduate School for completion and graduation by the given time frames

I have read this form and have had the opportunity to discuss the information contained in it with my advisor. I understand the academic milestones that I am expected to reach in order to successfully complete the Electrical Engineering Doctoral program, as well as the expected timeline for completing these milestones.
