Letter of Intent to Take the Electrical Engineering Ph.D. Qualifying Examination

Part 1: Written Portion

To: Dr. Yufang Jin, Electrical Engineering Doctoral Committee Chair

I, _____ hereby formally declare my intent to take the Electrical
Print Student Name
Engineering Ph.D. Qualifying Exam on **August 21, 2026**.

My choice of subject is the following (pick one)**:**

	Primary Concentration
• Computer Engineering	☐
• Communications	☐
• Signal Processing	☐
• Systems and Control	☐
• Electronic Materials & Micro-Devices	☐
• Power and Energy System	☐

Core Course – Primary Concentration (list one) **Grade:**

_____ _____

Core Course – Secondary Areas (list one) **Grade:**

_____ _____

Check One of the Following:

☐ This is my **1st** attempt to take the Ph.D. Qualifying Examination

☐ This is my **2nd** attempt to take the Ph.D. Qualifying Examination. The last time I took the exam was: _____
Term-Year

Attach:

- Copy of UTSA Transcript
- Acceptable preliminary Program of Study – with signatures from your faculty advisor for approval

---

- ❖ I accept the responsibility in making sure that I am qualified to take this exam.
- ❖ If I am not qualified to take this exam, I will have to petition the Electrical Engineering Graduate Program Committee (GPC) for approval before taking the exam.
- ❖ The QE exam is a serious and critical step toward qualifying for the PhD program. Two attempts are allowed to pass the QE. Failing on both the attempts ***WILL*** result in dismissal from the PhD program.
- ❖ A "no -show" on the QE exam ***WILL*** be considered as a failed attempt.
- ❖ A "no-show" with prior notification will be considered only under extenuating circumstances with strong evidence. The GPC will need to review the evidence and approve whether the circumstances where extreme enough for a "no-show". Evidence ***MUST*** come from local sources and vouched-for by the advisor (e.g., a doctor from within the US, jury duty, etc.).
